

Postoperative Instructions For Dr. Momtazi's Free Flap Breast Surgery Patients

These instructions are designed to help you care for your breast reconstruction and obtain the best possible results.

Diet

- No dietary restrictions; if you wish, you may drink coffee and wine and eat cheese, chocolate and mint

Showers

- Gently wash all of your skin, including the areas where you had your surgery, daily using mild soap and water
- Any soap is ok, but avoid fragrances
- It is safe to shower with your drains in place; do not take a bath until ok'd by Dr. Momtazi
- Do not avoid washing the areas where you had surgery; it is safe to do so
- Do not use alcohol or peroxide to clean your skin
- After washing, pat all areas dry and leave open to air
- If you wish to cover the area, you may reapply a light gauze dressing
- Do not apply creams, moisturizers, oils, or other products on or near where you had your surgery

Drains

- Keep track of how much fluid is coming out of your drains; you will be shown how to do this
- Drains are removed when the output is less than 20 ml in 24 hours for two days in a row
- Do not let anyone remove your drain without speaking to Dr. Momtazi first

Bras and Abdominal binder

- You may wear a sports bra if this provides you with comfort; please do not wear an underwire bra
- Please wear your abdominal binder at all times

Pain

- Pain to the area where you had your surgery is normal and expected
- This pain should improve over several days
- For pain relief, take Tylenol (acetaminophen) and Advil (ibuprofen) together (unless otherwise directed)
- If additional pain relief is required, please add the prescription pain medication you have been given to the Tylenol and Advil regimen you are already taking

Activity

- No strenuous activity (nothing that will increase your blood pressure) for 4 weeks minimum
- No lifting greater than 5 pounds for 4 weeks minimum
- Activities such as showering, cooking and moving around your home are ok
